PROFESSIONAL SUMMARY

Third-year Computer Science undergraduate (B.Tech, expected 2028) with a 9.0/10 CGPA and a strong interest in frontend development and UI/UX design. Skilled in building responsive web interfaces with HTML, CSS, and JavaScript, with working knowledge of Figma and Canva. Built and deployed an AI-powered Resume Analyzer integrating the Claude AI API, and a personal portfolio site. Selected at the inter-college level in Smart India Hackathon 2025 as team leader, presenting a telemedicine solution for rural healthcare access. Strong problem-solver with hands-on DSA/OOP fundamentals and a track record of performing under pressure in national-level hackathons.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering

Manakula Vinayagar Institute of Technology, Puducherry

Expected 2028

CGPA: 9.0 / 10

- Semester-wise CGPA: 9.1, 8.9, 9.0
- Relevant Coursework: Data Structures & Algorithms, Design & Analysis of Algorithms, Object-Oriented Programming (Java)
- Additional Training: Web Development & Computer Networks (VSC Certified Programs)

TECHNICAL SKILLS

Programming Languages: Java (fundamentals)

Web Technologies: HTML, CSS, JavaScript

Design & Prototyping: Figma (basics), Canva

Database: MySQL

Tools & Version Control: Git, GitHub, VS Code, Claude AI API

Core CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming

Soft Skills: Team Leadership, Problem-Solving, Public Presentation, Adaptability

PROJECTS

AI-Based Resume Analyzer | GitHub : <https://github.com/Senthamizh-Dhevi/AI-based-resume-analyzer>

- Built a client-side web application using HTML, CSS, and JavaScript that integrates the Claude AI API to analyze resume content and generate structured feedback.
- Designed the request/response flow to send resume text to the Claude AI API and parse the returned analysis into clear, actionable suggestions for users.
- Built a responsive front-end interface to present AI-generated feedback on content quality and structure in a user-friendly format.

Personal Portfolio Website | GitHub : <https://github.com/Senthamizh-Dhevi/portfolio-website>

- Built and deployed a personal portfolio website to showcase technical projects, skills, and achievements to recruiters and collaborators.
- Designed an intuitive, mobile-responsive navigation system, improving usability across screen sizes.
- Structured semantic HTML and modular, reusable CSS for easier maintenance and faster page loads.

LEADERSHIP & ACHIEVEMENTS

Team Lead, Smart India Hackathon (SIH) 2025

Inter-College Level Selection

- Led a team to design and present “Telemedicine in Rural Areas,” a solution addressing healthcare access gaps in underserved regions.
- Presented the solution directly to judges, managing pressure and answering technical questions on the spot; the project was selected at the inter-college level.
- Coordinated team members, structured the presentation narrative, and kept the team motivated through the preparation cycle.

1st Place, Blacksite Event — BrainstormX'26 National Level Gameathon

Organized by Dhanalakshmi Srinivasan College of Engineering and Technology

- Collaborated in a team of experienced hackathon participants to build an online petition platform under time constraints.
- Gained practical experience presenting to judges and adapting quickly in a new, unfamiliar team environment.

Participant, Auristra'26 National Level Hackathon

Organized by Takshashila University

- Collaborated in a team to design and present a solution to a real-world challenge.

CERTIFICATIONS & TRAINING

- GenAI Powered Data Analytics – Job Simulation, Tata Group (via Forage)
- Getting Started with Artificial Intelligence, IBM SkillsBuild
- CCNA: Switching, Routing, and Wireless Essentials, Cisco Networking Academy
- Career Edge – Young Professional, Tata iON
- Generative AI & Large Language Models (LLMs), IEEE Workshop
